

SUBHI VERMA

Software Development Engineer II

Gurugram, Haryana • +91 98765 43210 • subhi.verma@email.com • linkedin.com/in/subhiverma • github.com/subhiverma

PROFESSIONAL SUMMARY

Results-driven Software Development Engineer with 5+ years of experience building scalable, high-performance distributed systems. Proficient in Java, Python, and Go with deep expertise in microservices architecture, cloud platforms (AWS/GCP), and CI/CD pipelines. Proven track record of leading cross-functional initiatives, reducing system latency by 40%, and mentoring junior engineers. Passionate about clean code, system design, and delivering impactful product features.

TECHNICAL SKILLS

Languages	Java, Python, Go, TypeScript, SQL
Frameworks & Tools	Spring Boot, FastAPI, React, Node.js, gRPC, Apache Kafka
Cloud & DevOps	AWS (EC2, S3, Lambda, RDS, EKS), GCP, Docker, Kubernetes, Terraform, GitHub Actions
Databases	PostgreSQL, MySQL, Redis, MongoDB, Elasticsearch
Practices	System Design, Microservices, REST APIs, TDD, Agile/Scrum, Code Reviews

WORK EXPERIENCE

Software Development Engineer II | Flipkart Internet Pvt. Ltd. | Bengaluru (Remote)

August 2022 – Present

- Architected and owned the Order Management microservice handling 2M+ daily transactions, reducing p99 latency from 320ms to 190ms through query optimization and caching strategies.
- Led migration of 4 monolithic modules to microservices using Spring Boot and Kubernetes, cutting deployment time by 60% and improving fault isolation.
- Designed and implemented a real-time inventory sync pipeline using Kafka and Redis, eliminating data inconsistencies across 3 regional warehouses.
- Mentored 3 junior engineers through structured code reviews, design sessions, and onboarding programs; 2 were promoted within 18 months.
- Collaborated with Product and Data Science to A/B test a personalized delivery ETA feature that improved customer satisfaction score (CSAT) by 12%.

Software Development Engineer I | Paytm (One97 Communications) | Noida

June 2020 – July 2022

- Built RESTful APIs for the Paytm Wallet backend in Java/Spring Boot, supporting 500K+ concurrent users during peak sale events.
- Implemented an automated fraud detection module integrating rule-based and ML model scoring, reducing fraudulent transactions by 27%.
- Optimized PostgreSQL queries and introduced connection pooling via HikariCP, cutting average DB response time by 35%.
- Developed comprehensive unit and integration test suites achieving 85%+ code coverage using JUnit and Mockito.
- Participated in 24x7 on-call rotations, resolving P1 incidents with average MTTR under 20 minutes.

Software Engineering Intern | Adobe Systems India | Noida

January 2020 – May 2020

- Contributed to Adobe Analytics pipeline, building a Python ETL script processing 5GB of daily event data into a structured warehouse.

- Developed a React dashboard for internal QA teams to visualize event metrics, reducing manual reporting time by 4 hours/week.

EDUCATION

Bachelor of Technology – Computer Science & Engineering

Delhi Technological University (DTU), New Delhi | 2016 – 2020 | CGPA: 8.7 / 10

ACHIEVEMENTS & CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (2023)
- Recipient of Flipkart 'Spotlight Award' Q3 2023 for driving the Order Service re-architecture initiative.
- Ranked in top 5% on LeetCode (Knight, 2100+ rating); active competitive programmer on Codeforces.
- Speaker at internal Flipkart Tech Talk: 'Designing for Scale – Lessons from Order Management at 2M TPS' (2024).
